

The Ominous Thundering Herd Party Platform!!!

YMCA Youth and Government

Preamble

We the bison of the Ominously Thundering Herd Party, to promote the greatness of speech and debaters of Montana, present the following platform to persuade, encourage, and guide the current government of our very flawed state. We believe that the power of the government is to dictate the people; forcing them through the darkness of chaos and uncertainty, leading them to a great and pure form of government.

Article I: Education

We strongly advocate better and more aggressive educational policies for Speech and Debate participants. Montana is benefited by our postsecondary schools, and we support an increase in scholarships to our speech and debate members. We loathe private schools as well as public schools, with an exception to the aforementioned students. The more qualified the teacher, the better our students will be, therefore we support an increase of teacher salaries and training, after the priority of speech and debate coaches and staff.

Article II: Natural Resources

Though many would argue the conservation of this illogical state, we promote the exploitation of resources for all they are worth. We must use Montana's wind, water, oil, coal, and etc. to the full extent to provide for the best economical gain of Montanan's.

Article III: Social Welfare

In order to have a successful economy, country, and way-of-life the Government should have strict regulation on Welfare programs. In order to allow the greatest economy we must perpetuate poverty. By allowing this it promotes the citizens to gain passage into higher classes based on their will.

Article IV: Human Rights

Human Rights are key to every great society. We however will never tolerate the needs of an individual or of the many to conflict with the wants of the members associated with the Thundering Herd.

Article V: Criminal Justice

Criminals take away from society, not only in their crimes but in funding. They should serve the people, and allow more money to flow through our economy. We support the use of prisoners, under realistic requirements, to participate in Roman Style gladiator events, where the individual can be exploited for all they are worth.

Article VI: Taxation

Under the Articles of Confederation the inability to tax caused the rebellions and conflicts to occur. As we do recognize this as an issue, we can not tax every individual. Under the new government, held by the Thundering Herd, it is expected that everyone not associated with the Herd be made to pay tax. This tax is put in favor of people who participate in government to an extent greater than voting.

Article VII: Foreign Policy

Being the greatest and strongest nation in the world, we find it beneficial to align ourselves with other factions that can stand up to our greatness. We promote the peace and alliance with Islamic Extremists such as Iran, Pakistan, the Taliban, Al-Qaeda, and etc. With this system we also promote war with NATO, and UN, members, due to the pansy attitude of each member. With such a strong force as the United States is we must remain on the top in military power. We promote the use of nuclear weaponry to solve problems, and with this we can boost our hegemony.

Article VIII: Economy

Realizing the flaws, of communism, and capitalism, we as the Thundering Herd, suggest the use of socialism. Though we recognize the lack of government ran socialism, we promote a democratic ran economy. An economy of the people, for the people, and by the people will take the power out of the hands of the leftist progressive elites, and out of the incompetent government officials, and put it in the hands of the people.
