Concerned Citizens against listening to rap music in public while driving.

I represent concerned citizens who are against listening to rap music. We feel that prohibiting such indecency under these circumstances would greatly benefit Montana as a whole. Offenders would be charged with a fine that would vary in severity depending on the circumstances and the number of offenses. No exceptions would ever be made, ever.

A large number of car accidents occur every day as a result in part or in whole of listening to rap music while driving. Listening to rap music poses a serious distraction to driving and therefore puts the driver and others in potentially dangerous situations. Taking away this distraction would make for much safer driving and would greatly decrease the amount of accidents on Montana's roadways. Should someone be found listening to rap music while driving, their car shall be impounded for 6 months, and their iPod or CD's will be taken and incinerated. The offender himself will be tarred and feathered, and then must stand on the curb outside of Walmart with a large sign hanging from his or her neck which says "I listened to rap music while driving, and nearly killed everyone on the road."

I will support legislation that works to oppose listening to rap music while driving.
