

Marcus Davis
Butte Central High School

I believe that things happen in life you cannot control. But I also believe that government should not be one of those things. I think we should look at the way we use justice today. Justice should be used not to persuade people but to punish them for the things they have done. Senators and Representatives need to do their job. These leader need to listen to the people who elected them.

By using the power we have as a government to do good for the people, we can become a better country. Money is just an excuse not to do the best we can for the good of the world. People should look up to Senators and Representatives. Today they do not look to Congress for answers, they look for the bad parts of our government. By eliminating the things that have no use in our form of government we will save labor and money.

Things like gun control should not be governed so tightly by the government. People should have the freedom to do what they like with their weapons. I do not believe that this should be taken out of proportion. Guns should not be allowed in schools, but they should be legal to carry past the age of 16. All people should be required to take a class on gun safety.

By taking care of the people we will be able to take care of everything else. The main goal is to make people happy so that things can get completed.

I will support legislation that creates a better sense of government and which supports the people as a whole.
